

Technology News

August, 2011

As we begin a new school year, the faculty and staff would like to remind you of our technology communication tools. We hope that you will find these tools useful and will utilize them to keep in contact with the teachers.

Wikispaces

Our school will no longer be using Schoolnotes. All the teachers, Mrs. Baumann, and the office have set up Wikispaces.

You can access the Wikis through the school website by clicking on "Faculty and Staff."

St. Bernadette School Website: www.sbschool.us

- ❖ On each teacher's Wiki you can click on "Notify Me" so that you will be notified when the Wiki is updated. You must click on "wiki-wide changes page" in order to be notified when there are changes to any of the pages. However, you must sign up for a Wiki account in order to be notified.
- ❖ Teachers will update their Wikis daily with news announcements and homework.
- ❖ The Wiki does not take the place of assignment books. All students are still expected to write their homework in their assignment books each day.

Email

- ❖ Please keep in mind that teachers will not be able to respond to your emails immediately due to their limited number of breaks during the day. Please allow teachers 24 hours to respond to your email. Of course, you may also still leave a message at the office if you need to speak with a teacher.
- ❖ Please keep in mind that email is a way for parents to correspond with the teachers. Students should not email their teachers.

We hope that you will find these communication tools useful.

Miss Megan Soch
Computer Teacher
